

15 June 95

MEMO FOR: Barbara E. Camph
Group Manager, Engineering Contracts
SRI International

FROM:
CIA Office of Research and Development

SUBJECT: SRI Remote Viewing Documents Declassification

Thanks for your letter confirming that SRI has no objection to CIA declassifying the original association it had with SRI during the early 1970s when SRI was pursuing remote viewing investigations for ORD. In order to apprise you of the full range of material which we have given to the American Institutes of Research (AIR) for review, I have enclosed a detailed bibliography of the documents. If your request relates to a desire to review further the material itself, we can arrange to have an extra copy generated at some point during the study. Let me know soon if this is necessary since it will entail a lot of photocopying.

The already unclassified material listed in the bibliography was given to AIR on 14 June. We are still in the process of reviewing and declassifying the remaining material, and this will be given to AIR in order of priority should they desire it. They may not even request it if once they have examined it they feel that it is not necessary to the review.

Thanks again Barbara for your gracious cooperation. My number here is
